Company Overview

Founded in 2018, Bakkt builds next-generation digital financial infrastructure that enables institutional entry in Bitcoin, tokenization, stablecoin payments and AI-driven finance.

Our solutions include:

- **Bakkt Markets.** Bakkt Markets enables institutions to launch secure, compliant, and advanced digital asset brokerage and trading capabilities through a plug-and-play platform that provides global digital asset capabilities without needing to build in-house.
- **Bakkt Agent.** Bakkt Agent uses an intelligent agent swarm to provide institutions with instant access to Bakkt’s key infrastructure layer, including onboarding, virtual accounts, stablecoin rails, and global payouts.
- **Bakkt Global.** Bakkt Global enables geographic diversification into high-growth, liquid markets with high barriers to entry. For instance, Bakkt has made a significant investment in Bitcoin Japan Corporation (listed on the Tokyo Stock Exchange (TSE: 8105)) to expand institutional access in Japan.

Risk Factors Summary

Investing in our securities involves a high degree of risk. You should carefully consider the risks and uncertainties described under the heading “Risk Factors” in this prospectus, together with the other information contained or incorporated by reference in this prospectus, before making an investment decision. The occurrence of any of these risks could materially and adversely affect our business, financial condition, results of operations and prospects, and could cause the trading price of our securities to decline, resulting in a loss of all or part of your investment.

DTR Acquisition

On January 11, 2026, the Company entered into the Purchase Agreement with Opco, DTR and Akshay Naheta. Pursuant to the Purchase Agreement, the Company agreed to acquire 100% of the equity interests of DTR (the “DTR Acquisition”). The DTR Acquisition was approved by the Company’s stockholders on April 17, 2026. The DTR Acquisition was completed on April 30, 2026.

In connection with the Closing, the Company issued to Akshay Naheta and the other beneficial owners of DTR (collectively, the “DTR Holders”) an aggregate of 11,316,775 shares of Class A Common Stock, calculated as 31.5% of the aggregate number of shares of Class A Common Stock outstanding immediately prior to the Closing (on an as-converted basis, excluding certain warrants), subject to a downward adjustment of 196,532 shares. Up to 725,592 additional shares of Class A Common Stock are issuable as additional Consideration Shares upon the exercise of certain outstanding warrants.

Mr. Naheta, our Chief Executive Officer and a member of our Board of Directors, is a Selling Stockholder and a party to the DTR Acquisition, is a significant existing stockholder of the Company. Mr. Naheta recused himself from the review and approval of the DTR Acquisition, which was negotiated and approved by a special committee of independent and disinterested directors and subsequently approved by the full board of directors. Upon completion of the DTR Acquisition, Mr. Naheta beneficially owned 11,522,681 shares of Class A Common Stock of the Company, approximately 22.3% of the Company’s securities.

Mr. Naheta is not selling shares on behalf of the Company and will determine, in his sole discretion, whether, when and how to sell any shares covered by this prospectus. The Company will not participate in any such sales. We are registering the securities held by Mr. Naheta solely to satisfy contractual registration rights that we have granted to certain of the Selling Stockholders in connection with the DTR Acquisition.

In connection with the DTR Acquisition, the Company entered into certain related agreements, including the Registration Rights Agreement providing for the registration of the resale of the Consideration Shares and certain other securities, as well as voting and support agreements with certain stockholders of the Company. See “*The DTR Acquisition*” for additional information.

Gyzer Acquisition

In May 2026, the Company acquired all of the issued and outstanding shares of Gyzer Inc. (“Gyzer”). In connection with the acquisition, the Company issued shares of its Class A Common Stock and warrants to purchase its Class A Common Stock (“Gyzer Acquisition Warrants”) to Daniel Ishag, Gyzer’s founder and the Company’s Chief Commercial Officer, as consideration for the transaction. This prospectus relates to the resale of such shares. See “*Gyzer Acquisition*” for additional information.

Up-C Collapse

On November 3, 2025, the Company completed a transaction to simplify its organizational structure (the “Up-C Collapse”), pursuant to which the Company eliminated its prior Up-C structure by acquiring outstanding equity interests in Bakkt Opco Holdings, LLC (“Opco”) held by non-controlling equity holders of Opco in exchange for shares of the Company’s Class A Common Stock. In connection with the Up-C Collapse, the Company issued shares of Class A Common Stock to such holders as consideration for the acquisition of their equity interests in Opco and entered into, and subsequently amended, agreements relating to its tax receivable and contribution arrangements to reflect the simplified structure. The offer and resale of certain of those shares of Class A Common Stock is being registered pursuant to this registration statement. Following the Up-C Collapse, the Company owns 100% of the equity interests in Opco. See “*Up-C Collapse*” for additional information.

The Securities That May Be Offered

This prospectus relates solely to the resale of shares of Class A Common Stock by the Selling Stockholders and not to any offering of securities by the Company. We are not selling any securities under this prospectus and will not receive any proceeds from the resale of shares by the Selling Stockholders, although we may receive proceeds from the exercise of the warrants and to the extent any such warrants are exercised for cash. We have not entered into any arrangement or understanding with any Selling Stockholder or any other person regarding the distribution of the shares. All proceeds from such resales will be received by the Selling Stockholders for their own accounts.

[Table of Contents](#)

The Selling Stockholders may offer up to 21,010,640 shares of our Class A Common Stock. As at April 30, 2026, there are 47,866,956 shares of Class A Common Stock outstanding. After giving effect to the issuance of the maximum number of shares of Class A Common Stock offered hereunder, 48,578,316 shares of Class A Common Stock would be outstanding.

The Selling Stockholders may resell the shares covered by this prospectus from time to time in ordinary brokerage transactions, block trades, privately negotiated transactions or similar transactions, as described in the section of this prospectus captioned “Plan of Distribution.”

Holders of our Class A Common Stock are entitled to receive dividends declared by our board of directors out of funds legally available for the payment of dividends, subject to rights, if any, of preferred stockholders. We have not paid dividends in the past and have no current plans to pay dividends. Each holder of Class A Common Stock is entitled to one vote per share. The holders of Class A Common Stock have no preemptive rights.

RISK FACTORS

An investment in our Class A Common Stock involves a high degree of risk. Before you decide whether to purchase our Class A Common Stock in this offering, you should consider the risks described below, together with all of the other information contained or incorporated by reference in the prospectus supplement or appearing or incorporated by reference in this prospectus. You should also consider the risks, uncertainties and assumptions discussed under “Part I—Item 1A—Risk Factors” of our most recent Annual Report on Form 10-K and in “Part II—Item 1A—Risk Factors” of our Quarterly Reports on Form 10-Q filed subsequently to such Form 10-K that are incorporated herein by reference, as may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations.

Risks Related to this Offering

Investors who buy shares at different times will likely pay different prices.

The Selling Stockholders may resell all, some, or none of their shares of Class A Common Stock at any time or from time to time in their discretion and at different prices. As a result, investors who purchase shares from the Selling Stockholders in this offering at different times will likely pay different prices for those shares, and so may experience different levels of dilution, and in some cases substantial dilution, and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase from the Selling Stockholders in this offering as a result of future sales of our Class A Common Stock by us in future offerings or by the Selling Stockholders, including at prices lower than the prices such investors paid for their shares in this offering.

Sales of a substantial number of our shares of Class A Common Stock, including by the Selling Stockholders, could cause the market price of our Class A Common Stock to decline.

The Selling Stockholders may resell, under this prospectus, up to 21,010,640 shares of our Class A Common Stock. If all of these shares were issued and outstanding as of April 30, 2026, they would represent approximately 43.9% of the total number of our outstanding voting securities. This prospectus relates solely to the resale of shares by the Selling Stockholders, and we are not selling any securities under this prospectus and will not receive any proceeds from such resales.

The Selling Stockholders may sell all, some or none of their shares at any time and from time to time in their sole discretion, and we have no control over the timing or amount of such sales and will not participate in any resale transactions. Sales of a substantial number of shares of our Class A Common Stock in the public market by the Selling Stockholders and/or by our other existing stockholders, or the perception that such sales might occur, could depress the market price of our Class A Common Stock and impair our ability to raise capital through the sale of additional equity securities.

This risk may be heightened because our Chief Executive Officer is a Selling Stockholder and holds a significant portion of our outstanding Class A Common Stock. Sales by Mr. Naheta, or the perception that such sales may occur, could create a public market “overhang” and adversely affect the market price of our Class A Common Stock. In addition, because Mr. Naheta has access to material non-public information, his ability to sell shares will be subject to blackout periods or other restrictions, which could result in the timing of sales being concentrated in particular periods.

Risks Related to the Ownership of Our Class A Common Stock

Future sales of our Class A Common Stock could lower our stock price and dilute existing stockholders.

We may, in the future, sell additional shares of Class A Common Stock in subsequent public or private offerings. We cannot predict the size or terms of future issuances of our Class A Common Stock or the effect, if any, that future sales and issuances of shares of our Class A Common Stock will have on the market price of our Class A Common Stock. Sales of substantial amounts of our Class A Common Stock, or the perception that such sales could occur, may adversely affect prevailing market prices for our Class A Common Stock. In addition, these sales may be dilutive to existing stockholders.

We may fail to meet our publicly announced guidance or other expectations about our business, which would cause our stock price to decline.

We may provide guidance regarding our expected financial and business performance, such as projections regarding sales and production, as well as anticipated future revenue, gross margins, profitability, and cash flows. Correctly identifying key factors affecting business conditions and predicting future events is inherently an uncertain process and our guidance may not ultimately be accurate. Our guidance is based on certain assumptions such as those relating to anticipated production and sales volumes and average sales prices, supplier and commodity costs, and planned cost reductions. If our guidance is not accurate or varies from actual results due to our inability to meet our assumptions or the impact on our financial performance that could occur as a result of various risks and uncertainties, the market value of our Class A Common Stock could decline significantly.

We do not intend to pay dividends for the foreseeable future.

We have never declared nor paid cash dividends on our capital stock. We currently intend to retain any future earnings to finance the operation and expansion of our business, and we do not expect to declare or pay any dividends in the foreseeable future. Consequently, stockholders must rely on sales of their Class A Common Stock after price appreciation, which may never occur, as the only way to realize any future gains on their investment.

FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying prospectus supplement and the documents incorporated by reference herein and therein contain forward-looking statements within the meaning of the federal securities laws, which statements involve substantial risks and uncertainties. Forward-looking statements generally relate to future events or our future financial or operating performance. These forward-looking statements are based on management’s current expectations, assumptions, hopes, beliefs, intentions and strategies regarding future events and are based on currently available information as to the outcome and timing of future events. We caution you that these forward-looking statements are subject to all of the risks and uncertainties, most of which are difficult to predict and many of which are beyond our control, incident to our business. Forward-looking statements included or incorporated by reference into this prospectus may include, for example, statements about:

- expectations regarding our strategic transformation and completion thereof;
- future financial and operational performance;
- expansion of Bakkt Markets, Agent, and Global;
- anticipated benefits of investment in international markets;
- product launches and scalability;
- cost optimization and capital structure;
- industry growth in stablecoins, tokenization and digital assets;
- governance initiatives; and
- regulatory developments.

These forward-looking statements are based on information available as of the date they were made and reflect management’s expectations, forecasts and assumptions as of such date, and involve a number of judgments, known and/or unknown risks and uncertainties. Accordingly, forward-looking statements should not be relied upon as representing our views as of any subsequent date. We do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date they were made, whether as a result of new information, future events or otherwise, except as may be required under applicable law.

You should not place undue reliance on these forward-looking statements. Should one or more of a number of known and unknown risks and uncertainties materialize, or should any of our assumptions prove incorrect, our actual results or performance may be materially different from those expressed or implied by these forward-looking statements. Some factors that could cause actual results to differ include, but are not limited to:

- our ability to grow and manage growth profitably;
- whether we will be able to successfully integrate our operations with those of DTR, including its infrastructure, and achieve the expected benefits therefrom;
- the regulatory environment for digital assets and digital stablecoin payments;
- changes in our business strategy;
- our adoption of our updated investment policy and related treasury strategy, including our ability to successfully consummate acquisitions, integrate or manage investments in potential acquisition targets and investees;
- our ability to execute and consummate a definitive agreement with Zoth and its expected benefit;
- the price of digital assets, including Bitcoin;
- risks associated with owning digital assets, including Bitcoin, including price volatility, limited liquidity and trading volumes, relative anonymity, potential widespread susceptibility to market abuse and manipulation, compliance and internal control failures at exchanges and other risks inherent in its entirely electronic, virtual-form and decentralized network;
- the fluctuation of our operating results, including because we may be required to account for our digital assets at fair value;
- our ability to time the price of our purchase of digital assets pursuant to our strategy;

Table of Contents

- the impact of the market value of digital assets on our ability to satisfy our financial obligations, including any debt financings;
- unrealized fair value gains on our digital asset holdings subjecting us to the corporate alternative minimum tax;
- legal, commercial, regulatory and technical uncertainty regarding digital assets and enhanced regulatory oversight of companies holding digital assets including the possibility that regulators reclassify any digital assets we hold, including Bitcoin, as a security causing us to be in violation of securities laws and be classified as an “investment company” under the Investment Company Act of 1940;
- competition by other Bitcoin treasury companies and the availability of spot-traded products for Bitcoin;
- enhanced regulatory oversight as a result of our updated investment policy and related treasury strategy;
- the possibility of experiencing greater fraud, security failures or operational problems on digital asset trading venues compared to trading venues for more established asset classes, and any malfunction, breakdown or abandonment of the underlying blockchain protocols, or other technological difficulties, may prevent access to or use of such digital assets;
- the concentration of our expected digital asset holdings relative to non-digital assets;
- the inability to use our digital asset holdings as a source of liquidity to the same extent as cash and cash equivalents, due to, for example, risks associated with digital assets and other risks inherent to its entirely electronic, virtual-form and decentralized network;
- us or a third-party service provider experiencing a security breach or cyber-attack where unauthorized parties obtain access to digital assets;
- the loss of access to or theft or data loss of our digital assets, which could be unrecoverable due to the immutable nature of blockchain transactions;
- if we elect to hold our digital assets through a third-party custodian, the loss of direct control over our digital assets and dependence on the custodian’s security practices and operational integrity which may lead to the loss of our digital assets as a result of the insolvency of the custodian, theft by employees or insiders of the custodian or if the custodian’s security measures are compromised, including as a result of a cyber-attack;
- us not being subject to the legal and regulatory protections applicable to investment companies such as mutual funds and exchange-traded funds, or to obligations applicable to investment advisers;
- the non-performance, breach of contract or other violations by counterparties assisting us in effecting our updated investment policy and related treasury strategy;
- our future capital requirements and sources and uses of cash, including funds to satisfy our liquidity needs;
- Our ability to raise capital and investments in us, including by our Chief Executive Officer;
- changes in the market in which we compete, including with respect to our competitive landscape, technology evolution or changes in applicable laws or regulations;
- changes in the markets that we target;
- volatility and disruptions in the digital asset, digital payments and stablecoin markets that subject us to additional risks, including the risk that banks may not provide banking services to us and market sentiments regarding digital assets, digital payments and stablecoins;
- the possibility that we may be adversely affected by other macroeconomic, geopolitical, business, and/or competitive factors;
- our ability to launch new services and products, including with our expected commercial partners, or to profitably expand into new markets and services;
- our ability to execute our growth strategies, including identifying and executing acquisitions and divestitures and our initiatives to add new clients;
- our ability to reach definitive agreements with our expected commercial counterparties;
- our failure to comply with extensive government regulations, oversight, licensure and appraisals;

USE OF PROCEEDS

All of the shares of Class A Common Stock offered by the Selling Stockholders pursuant to this prospectus will be sold by the Selling Stockholders for their respective accounts. We will not receive any proceeds from the resale of shares by the Selling Stockholders, and we are not selling any securities under this prospectus. All proceeds from the resale of shares will be received by the Selling Stockholders for their own accounts.

We will receive up to an aggregate of approximately \$11,764,680 from the exercise of all of the Class 1 Warrants and the Class 2 Warrants held by Intercontinental Exchange Holdings, Inc. (“ICE”), which is a Selling Stockholder, assuming the exercise in full of all such warrants for cash.

In addition, we will receive up to an aggregate of approximately \$2,500,000 from the exercise of all of the Gyzer Acquisition Warrants held by Mr. Ishag, who is a Selling Stockholder, assuming the exercise in full of all such warrants for cash.

The only proceeds we may receive in connection with the securities covered by this prospectus would be from the exercise of outstanding Class 1 Warrants, Class 2 Warrants and Gyzer Acquisition Warrants, to the extent such warrants are exercised for cash. Any such proceeds are not related to the resale of shares by the Selling Stockholders.

We are not offering any securities under this prospectus. To the extent we receive proceeds from the cash exercise of the Class 1 Warrants, the Class 2 Warrants and the Gyzer Acquisition Warrants, we intend to use such proceeds for working capital and other general corporate purposes.

DESCRIPTION OF CAPITAL STOCK

The description of our capital stock is incorporated by reference to Exhibit 4.9 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2025, filed with the SEC on March 19, 2026.

THE DTR ACQUISITION

On January 11, 2026, Opco, the Company, DTR, and Akshay Naheta entered into the Purchase Agreement. Pursuant to the terms and subject to the conditions set forth in the Purchase Agreement, the Company completed the acquisition of all of the outstanding equity interests of DTR (the “DTR Acquisition”) on April 30, 2026 (the “Closing”) by issuing to the DTR Holders an aggregate of 11,316,775 shares of Class A Common Stock (the “Consideration Shares”). The Consideration Shares were calculated as (A) 31.5% of (i) the aggregate number of shares of Class A Common Stock issued and outstanding immediately prior to the Closing plus (ii) the aggregate number of shares of the Company’s capital stock issuable upon full exercise or conversion of any options or other convertible derivative securities outstanding immediately prior to the Closing, on an as-converted basis, excluding any outstanding warrants to purchase shares of Class A Common Stock, less (B) an adjustment amount of 196,532 shares (the “Adjustment Amount”).

The number of Consideration Shares was reduced by the Adjustment Amount, which reflects (x) the aggregate amount of certain shareholder loans extended to DTR by the Seller or his affiliates outstanding immediately prior to the Closing and (y) transaction expenses incurred by DTR or Mr. Naheta in excess of \$1.5 million, divided by (z) the volume-weighted average trading price of the Company’s Class A Common Stock over

Table of Contents

the 20 consecutive trading day period ending on and including the day immediately prior to the Closing, or \$8.65. In addition, following the Closing, to the extent the Company issues shares of Class A Common Stock upon the exercise or conversion of warrants outstanding as of the date of the Purchase Agreement, the Consideration Shares will be increased by a number of shares equal to 31.5% of the number of shares issued upon such exercise or conversion, which could result in the issuance of up to an additional 725,592 shares of Class A Common Stock.

A Special Committee of the Board, composed entirely of independent and disinterested directors (the “Special Committee”), was formed and granted full authority to review, negotiate, and approve the terms of the DTR Acquisition on behalf of the Company. After evaluating the DTR Acquisition, the Special Committee unanimously determined that the DTR Acquisition was fair to, and in the best interests of, the Company and its stockholders (excluding Mr. Naheta and his affiliates), approved the DTR Acquisition, and recommended that the full Board (excluding Mr. Naheta from such consideration) approve the DTR Acquisition.

Following the Special Committee’s approval, the Board (excluding Mr. Naheta from such consideration) approved the DTR Acquisition and determined to submit the DTR Acquisition to the Company’s stockholders for approval. Mr. Naheta is a member of the Board and recused himself from consideration and deliberation with respect to the DTR Acquisition and abstained from the vote.

The Company’s stockholders approved the DTR Acquisition on April 17, 2026. The DTR Acquisition was completed on April 30, 2026, with the Company acquiring all of the outstanding equity interests of DTR.

In connection with the Purchase Agreement: (i) each current DTR Holder entered into a joinder agreement pursuant to which such holder agreed to be bound by the obligations of the Seller under the Purchase Agreement, (ii) the Seller entered into a non-competition agreement (the “Non-Competition Agreement”) with the Company, (iii) each current DTR Holder, the Company, Mr. Naheta and ICE entered into the Registration Rights Agreement and (iv) the Company and certain stockholders entered into a voting and support agreement (the “Voting and Support Agreement”).

Non-Competition Agreement

Pursuant to the Non-Competition Agreement, Mr. Naheta has agreed, effective at the Closing, to not, without the prior written consent of the Company, compete with the business, activities, products or services conducted, authorized, offered, or provided by the Company or any of its subsidiaries in the United States, or any other jurisdiction where the Company conducts business as of the Closing during a period beginning on the date of the Closing and ending on the first anniversary of the Closing (the “Restricted Period”), or, upon exercise by the Company, in the Company’s sole discretion, a later date that is on or prior to the second anniversary of the Closing (such period, the “Extension Period”). If (i) Mr. Naheta’s employment is terminated with the Company or any subsidiary or affiliate thereof, regardless of whether the Company or Mr. Naheta initiated the termination of employment, and (ii) the Company has elected to extend the Restricted Period into the Extension Period, then after the first anniversary of the Closing, the Company shall pay to Mr. Naheta monthly compensation for each month of the Extension Period in an amount equal to 100% of Mr. Naheta’s average monthly base salary from the Company during the twelve months immediately preceding such termination.

Amended and Restated Registration Rights Agreement

The Registration Rights Agreement, which became effective at the Closing, amends and restates that certain Registration Rights Agreement, dated as of October 15, 2021, pursuant to which the Company granted ICE and the other holders party thereto certain registration rights with respect to certain securities of the Company. Under the terms of the Registration Rights Agreement, the Company agreed, among other things, to register for resale (a) any Class A Common Stock currently owned by ICE or that may be issued upon exercise of any warrants currently owned by ICE, (b) the Consideration Shares, and (c) any other equity securities of the Company issued or issuable to any stockholder with respect to any such share of Class A Common Stock referred to in clauses (a) and (b) by way of a stock dividend or stock split or in connection with a combination of shares, recapitalization, merger, consolidation or reorganization (collectively, the “Registrable Securities”). Under the terms of the Registration Rights Agreement, the Company has agreed to prepare and file a registration statement with the SEC to register for resale the Registrable Securities within five business days after the date of the Closing. The Company has agreed to

be responsible for all fees and expenses incurred in connection with such registration. Furthermore, under the Registration Rights Agreement, the holders of the Registrable Securities have certain customary underwritten offering demand rights and piggyback registration rights. The Company has granted certain customary piggyback registration rights and indemnification rights in connection with such registration of Registrable Securities.

Voting and Support Agreement

Pursuant to the Voting and Support Agreement, the Voting and Support Parties agreed to vote their shares of the Company's Class A Common Stock (including those owned beneficially) in favor of the DTR Acquisition. The Voting and Support Agreement automatically terminated upon the Closing. At the time of execution, the Voting and Support Parties together beneficially owned approximately 36.1% of the outstanding shares of Class A Common Stock.

The foregoing descriptions of the Purchase Agreement, the Non-Competition Agreement, the Registration Rights Agreement and the Voting and Support Agreement are not complete and are qualified in their entirety by reference to the full text of such agreements, which are filed as Exhibits 10.1, 10.2, 10.3 and 10.4, respectively, hereto and are incorporated herein by reference.

GYZER ACQUISITION

In May 2026, the Company completed the acquisition of all of the issued and outstanding equity interests of Gyzer Inc. ("Gyzer"), a digital asset payments business. In connection with the acquisition, the Company issued 94,595 shares of its Class A Common Stock and warrants to purchase 250,000 shares of its Class A Common Stock to Daniel Ishag, the sole stockholder of Gyzer and the Company's Chief Commercial Officer, as consideration for the transaction. This prospectus relates to the resale of such shares by the applicable Selling Stockholder, including any shares received by the applicable Selling Stockholder upon the exercise of the Gyzer Acquisition Warrants.

UP-C COLLAPSE

On November 3, 2025, the Company completed a transaction to simplify its organizational structure (the "Up-C Collapse"), pursuant to which the Company eliminated its prior umbrella partnership-C corporation ("Up-C") structure. Prior to the Up-C Collapse, the Company operated through Bakkt Opco Holdings, LLC ("Opco"), in which certain non-controlling equity holders held interests.

In connection with the Up-C Collapse, the Company acquired the outstanding equity interests in Opco held by such non-controlling equity holders in exchange for shares of the Company's Class A Common Stock. As a result of the Up-C Collapse, such holders became stockholders of the Company, and the Company directly or indirectly acquired 100% of the equity interests in Opco.

In connection with the Up-C Collapse, the Company issued shares of Class A common stock to the former holders of Opco equity interests as consideration for the acquisition of their equity interests in Opco. Such shares were issued in reliance on the exemptions from registration under the Securities Act. This prospectus relates to the resale of certain of such shares by the applicable Selling Stockholders.

In connection with the Up-C Collapse, the Company, ICE and Akshay Naheta entered into (i) Amendment No. 1 to the Tax Receivable Agreement, dated as of October 16, 2025, which amended the Tax Receivable Agreement, dated as of October 15, 2021, (ii) the Contribution Agreement, dated as of October 16, 2025 (the "Contribution Agreement"), and (iii) the Contribution Agreement Amendment, dated as of November 3, 2025, which amended the Contribution Agreement in connection with the consummation of the Up-C Collapse. These agreements reflect the elimination of the Up-C structure and address the parties' respective rights and obligations following the Up-C Collapse, including with respect to tax attributes and related payments. Following the Up-C Collapse, the Company owns 100% of the equity interests in Opco and no longer has non-controlling equity holders at the Opco level.

Upon completion of the DTR Acquisition, Mr. Naheta owned 22.3% of the outstanding shares of Class A Common Stock.

Mr. Naheta will act independently of the Company in determining whether, when and how to dispose of any shares, and any such sales will be made for his own account. The Company is not a party to, and has not participated in, any arrangement or understanding with Mr. Naheta or any other person regarding the distribution of such shares, and Mr. Naheta is not selling shares on behalf of the Company. To the extent that any of the shares held by Mr. Naheta become eligible for resale pursuant to Rule 144 under the Securities Act, such shares may be sold in accordance with Rule 144 rather than pursuant to this prospectus.

All of the Consideration Shares issued at the Closing to Mr. Naheta and the other DTR Holders (and any additional Consideration Shares issuable upon the exercise of warrants as described above) were issued in reliance on the exemption from registration pursuant to Section 4(a)(2) of the Securities Act. ICE acquired the Class 1 Warrants and Class 2 Warrants in a registered direct offering in February 2024.

The Class 1 Warrants and Class 2 Warrants are exercisable for shares of Class A Common Stock at an exercise price of \$25.50 per share (subject to adjustment), payable in cash or on a cashless basis. The Class 2 Warrants include an alternative cashless exercise feature that, under certain conditions, permits the holder to receive a number of shares of Class A Common Stock equal to the intrinsic value of the warrants, determined pursuant to a formula based on the market price of the Class A Common Stock, in lieu of paying the exercise price in cash. This feature results in the issuance of fewer shares than a cash exercise, but allows the holder to realize the economic value of the warrants without any cash payment. The Class 1 Warrants and Class 2 Warrants will expire in September 2029, and include customary anti-dilution and fundamental transaction provisions.

In accordance with our obligations under the Registration Rights Agreement entered into in connection with the Purchase Agreement, we agreed to register the resale of the ICE Shares. The resale of such shares is being registered solely to satisfy such contractual registration rights.
